

LONGITUDINAL STRESSES ON A SHIP (ONLINE) ONLINE

This course shows participants the different types of longitudinal stress that a vessel is subject to. Each stress type will be explained in terms of how the stress occurs and how the ships hull is impacted by the stress.

Delivery Method: 100% online training and assessment

Designed for: Junior Deck Officers, Deck Ratings, Dry Bulk Cargo Loading Terminal, Dry Bulk Cargo Unloading/Discharge Terminal, Tanker Loading Terminal, Tanker Unloading/Discharging, Container Terminal, a refresher for Masters and Senior Deck Officers

Content Types: Written material, images, animation

Learning Outcomes: Upon successful completion of this training, participants will:

1. Know the three types of stress identified on ships hulls
2. Be able to identify how shear force is created and possible impacts on the ship
3. Be able to identify how bending moments are created and possible impacts on the ship
4. Be able to identify how torsion stress is created and possible impacts on the ship

Assessment: An assessment will be provided at the end of the course (fully online), you will have unlimited attempts to achieve the 100% pass mark.

COVID-19

In order to help slow the spread of COVID-19 and to protect the health and safety of our trainees and staff, AMC Search (AMCS) is operating a COVID-Safe campus aligned with the protocols and procedures established by the University of Tasmania. This includes automatic screening for on-campus trainees, enhanced hygiene and social distancing controls.

Strict Tasmanian border controls will impact your training if you are planning on travelling to train with AMC Search from interstate. For up-to-date information about Tasmania's border controls please visit the [Tasmanian Government](#).

All [Online Maritime Training](#) courses running as normal.

Also, some courses can be adapted to online delivery at short notice so please call 03 6324 9850 to discuss your training requirements.
