Antigua and Barbuda Department of Marine Services and Merchant Shipping | Bahamas Maritime Authority | Bermuda Shipping and Maritime Authority | Maritime Authority of the Cayman Islands | Marine Department of Hong Kong | Liberian Registry | Republic of Marshall Islands Maritime Administrator | Panama Maritime Authority.

EQUIPMENT REQUIRED

Tanker Familiarisation - Oil and Chemical (Online) is provided using the University of Tasmania's online learning environment, MyLO.

The course involves the viewing of multiple videos, which require a reasonable internet connection speed. Certain components will need to be completed on a desktop/laptop computer, and we suggest using Google Chrome as your browser. To complete the final assessment, you will need access to a web camera.

Computer setup: Check your computer and/or browser are set up to enable MyLO to work properly by running a [browser check](#).

ONLINE TRAINING EXAMPLE

COVID-19 VACCINATION

AMC Search (AMCS) is operating a COVID-Safe campus aligned with the protocols and procedures established by the University of Tasmania. The safety and wellbeing of staff, students and the broader community is an absolute priority for the University of Tasmania.

We strongly encourage everyone to remain up to date with their COVID-19 vaccinations but no longer require our students to be vaccinated to come to our university campuses,

DURATION: Online, approximately 14 hours

REGISTRATION TERMS

Face to face courses

Cancellations up to 15 working days prior to the scheduled date will be accepted without penalty. Cancellations less than 15 working days will be subject to 100% cancellation fee.

AMC Search reserves the right to cancel the course 15 working days prior to the scheduled date if insufficient registrations are received. Any fees paid for cancelled courses will be refunded in full.

When making flight bookings please ensure you book on a fully refundable basis.

Online courses

Payment of course fees, or authorisation to invoice from your company, is required before access to the online learning environment is provided. Please note, it will take between 2-4 business days to provide your access to the online course if you have not studied previously with AMC Search, the Australian Maritime College or the University of Tasmania.

COURSE STRUCTURE AND ASSESSMENT INFORMATION

The Tanker Familiarisation - Oil and Chemical course is made up of 3 types of activities:

1. Written learning materials including images.
2. Video footage and 3D animation that explains the written material.
3. An assessment which requires a 100% pass mark with unlimited attempts provided. The assessment requires a webcam to record the assessment process.

On successfully completing this course you will be able to:

- Contribute to the safe operation of oil and chemical tankers
- Take precautions to prevent hazards
- Apply occupational health and safety precautions and measures
- Carry out fire-fighting operations
- Respond to emergencies
- Take precautions to prevent pollution of the environment from the release of oil or chemicals
