COURSE STRUCTURE

Online Theory Content and Assessments

The online course is delivered through the University of Tasmania's learning management system, MyLO. The course requires a reasonable internet connection and a webcam to complete the online theory assessments.

The online course consists of the following ten sections:

- Section 1 – Ship Characteristics and Cargo Containment
- Section 2 – Chemistry of Liquefied Gases
- Section 3 – Properties of Liquefied Gases
- Section 4 – Hazards and Monitoring
- Section 5 – The IGC Code and LGC Construction
- Section 6 – Pipelines and Tank Fittings
- Section 7 – Cargo Handling Plant
- Section 8 – Cargo Operations
- Section 9 - Tank Filling Limits and Cargo Calculations
- Section 10 - Firefighting and Other Emergencies

Two theory assessments are provided upon the completion of the ten sections; the assessments require a 100% pass mark with unlimited attempts provided.

Simulation Exercises

After completing the online theory content, you will be required to complete simulation exercises utilising K-Sim Connect online portal. The simulation exercises require a reasonable internet connection speed and will need to be completed on a desktop/laptop.

You will be advised of the booking dates for your simulation exercises and the allocated time within which you need to complete them. We will provide you with an exercise manual and instructional video to help assist in the completion of the simulation exercises.

DURATION: Online, approximately 28 hours
